Re: The Sale of mixtures of Non-Certified Seed with Certified South Dakota State University PVP Protected Seed

The following varieties are protected under Title V of the Plant Variety Protection Act.

Oats	Spring Wheat	Winter Wheat	Soybeans
Colt	Advance	Alice	Davison
Goliath	Boost	Draper	Hamlin
Hayden	Brick	Darrell	Spink
Horsepower	Briggs	Expedition	Stride
Natty	Driver	Ideal	Surge
Rushmore	Focus	Lyman	Turner
Saddle	Forefront	Oahe	
Shelby 427	Granger	Redfield	
Warrior	Prevail	SD Andes	
	Select	Thompson	
	Surpass	Wendy	
	Traverse	Winner	

The South Dakota Board of Regents are the owners of the registrations or applications for each of the listed varieties above and give limited permission to use the listed varieties in seed mixtures subject to the following conditions:

1. The PVP Title V variety that is used in the mixture must be certified by an official seed certification agency or from a certified seed lot.
2. The variety that is used in the mixture must be identified on the label as required by the U.S. Plant Variety Protection Act and as a component of the mixture including the percentage of the mixture the component contributes.
3. Sellers of the mixture will maintain proper records for the mixture and components and record quality information for each mixture component and proof of certification.

Questions about this limited permission or the requirements set forth can be addressed to William (Bill) Gibbons at the contact information above.

Sincerely,

William Gibbons (Distinguished Professor)
Director - South Dakota Agricultural Experiment Station
Associate Dean for Research, College of Agriculture, Food & Environmental Sciences
