* Lodging score: 1, perfectly standing; to 5, completely flat.

Grain yield and grain protein content are corrected to 13% moisture.

§ Three-year yields are not reported as the location was not harvested in 2019.

¶ Trial averages may include values from experimental lines that are not reported.

† Value required (≥LSD) to determine if varieties are significantly different from one another.

‡ C.V. is a measure of variability or experimental error, 15% or less is considered acceptable.
